COMMENCEMENT CEREMONY

The Naval Postgraduate School

The Naval Postgraduate School provides relevant and unique advanced education and research programs in order to increase the combat effectiveness of United States and allied forces and enhance the security of the United States.

The Naval Postgraduate School was opened in Annapolis in 1909 and later transferred to the Monterey Peninsula in 1952. Since its beginning, the school has conferred over 43,000 degrees.

Enrollment at the Naval Postgraduate School has grown to nearly 1,500 resident students. Nearly 50 percent are from the United States Navy or Marine Corps, 25 percent are from other United States armed services, and the remaining 25 percent are from allied countries. Officers are obliged to remain in service for about three years after they complete their schooling.

Students are engaged in intensive studies leading to a master's degree in one of 42 different curricula split between the School of International Graduate Studies, and the Graduate Schools of Operational and Information Sciences, Engineering and Applied Science, and the School of Business and Public Policy. Each curriculum is tailored to provide the academic requirements for accredited advanced degrees and meet the additional educational skill requirements necessary for subsequent assignments.

The Naval Postgraduate School has long been a testing ground for the Navy's most advanced research. The Naval Postgraduate School develops cutting edge technologies for numeric meteorological predictive sciences, oceanographic vehicles, and ultra-high complexity computer model simulations for Department of Defense use. Over 60 million dollars of research is conducted or administered annually at the school.

The Naval Postgraduate School is accredited by the Western Association of Schools & Colleges, the Accreditation Board for Engineering & Technology, the Association to Advance Collegiate Schools of Business and the National Association of Schools of Public Affairs & Administration. The North Atlantic Treaty Organization has recognized NPS as an Alliance-wide Partnership for Peace Education and Training Center.
